

EFFORT TO STAMP OUT YELLOW JACK

Surgeon General Wyman
Active

DREAD DISEASE APPEARS AT HAMPTON ROADS.

War Department Officials Look Upon
'Situation' As Serious—Conflicting
Stories As to Origin—One is That
Fever Was Brought By a Sailor
From Santiago—Another is That
It Was Conveyed By a Soldier
From the Same Place—Ten Victims
of the Plague.

Washington, July 31.—[Special]—
Surgeon General Wyman is making
active preparations to stamp out the
yellow fever at Hampton Roads Sol-
diers' Home.

The war department officials look up-
on the situation as being very serious.
Conflicting stories as to the origin of
the epidemic have been received. One
is that fever was brought by a sailor
from Santiago and another says it was
conveyed by a soldier from the same
place.

A garrison from Ft. Monroe will be
removed to some place on some northern
coast.

The officials here don't conceal their
alarm. It is fully realized that if the
fever spreads to Norfolk, Portsmouth,
Newport News, Williamsburg and other
towns in that section of Virginia, it
will be longer before the disease
finds its way to Washington and Rich-
mond.

Surgeon General Sternberg, of the
army, and Surgeon General Wyman, of
the Marine hospital service, and seven
department surgeons have been ordered
to the soldiers' home.

A quarantine has been established
against the infected points.

Two cases and one more death have
been reported today.

No teams or boats are running
today for Newport News.

Four hundred guests left the hotels
at Old Point Comfort at 3 o'clock this
morning by special train.

Newport News, Va., July 31.—Thirty
cases of yellow fever in the soldiers'
home at Hampton and ten deaths in
the last two days is the startling news
that comes from the reservation. This
city is in a turmoil of excitement and
Hampton and Old Point have quarantined
against the home and Newport
News will follow suit. It was learned
from an official source that there is no
doubt regarding the nature of the dis-
ease. The epidemic appeared in the
home nearly a week ago, but the physi-
cians have been in doubt regarding its
nature and did not decide until Sun-
day that it was black vomit. As soon
as it was definitely determined that
the dreaded scourge was raging in the
institution steps were taken to protect
the public. The cars were prevented
from running within a half mile of the
reservation. It is feared, however,
that much damage has already been
done, as there were two or three ex-
cursions from the interior Sunday,
which spent the Sabbath on the beach
and in Hampton.

The health authorities have taken
steps to battle with the scourge and it
is believed that they will be able to
handle it successfully. There were
seven deaths Saturday and three Sun-
day. More than 4,000 veterans of the
civil war are sheltered in this home.
When this fact is considered, the se-
riousness of the situation may be read-
ily seen. Besides those mentioned
there have been several other deaths at
the institution, but it cannot be stated
that all of them were caused by yellow
fever.

Government Acts Promptly.

Washington, July 31.—Surgeon Gen-
eral Wyman of the marine hospital
service was informed Saturday night
of an outbreak of yellow fever at the
National Soldiers' home at Hampton,
and immediately dispatched surgeons
in the service to investigate the sick-
ness. Dr. Wyman himself will go to
Hampton in a few days to take charge
of the work of preventing a spread of
the disease if it develops into genuine
yellow fever.

Two of the surgeons dispatched to
the home reported that the symptoms
very much resembled those of yellow
fever and that while they could not be
positive in their diagnosis as yet they
were inclined to the belief that the
illness was the dreaded yellow jack.
The government will adopt strict pre-
cautionary measures to prevent a
spread of the disease, and will fight its
progress with all the skill and re-
sources at its command.

Accused of Hanging a Girl.

Dallas, Texas, July 31.—One of the
persons charged with the murder by

county last Thursday was arrested
Saturday. The prisoner, whose name is
F. Grinninger, was taken to the county
jail at Bonham, seven miles distant,
without the people of the neighborhood
learning of the arrest in time to do violence.
The prisoner is a young white
farmer, 20 or 21 years old.

TOBACCO TRADE IS REPORTED LIMITED

OWING TO SCARCITY OF LEAF
IN FIRST HANDS.

Recent Extreme Hot Weather Affects
the Growth of Plants—Early Fields
Are Showing Up—Finely—No Hail
Reported Thus Far—Topping Quite
General.

A few straggling lots of cased goods
are being marketed, but the trade
is, necessarily, a limited one, owing to
the scarcity of leaf remaining in first
hands. The country districts are about
as thoroughly cleaned up as they have
been in years, and yet persistent hunt-
ing will always turn up more or less of
old leaf.

Packers are having some trade,
though the particulars of no large trans-
actions have reached here. Louis Hiller
of Chicago, was looking through the
Wisconsin market during the week.

The extreme hot weather of last week
has had a tendency to give a spindling
growth in some of the fields in sections
not favored by the showers. The early
fields are showing up finely and no hail
is reported thus far in any of the grow-
ing sections. Topping is now becoming
quite general.

The following sales are reported at
Edgerton: Chris. Asbjornsen, 101 cases,
at 7 1/2 cents; I. E. Skaar, 100 cases at 7 1/2
cents; Ole Osgard, 41 cases, at 7 1/2 cents;
Charles Hildred, 25 cases, at 7 1/2 cents.
The shipments out of storage reach a
total of 836 cases, about 17 carloads,
for the week from that station at all
points and since last report 1,035 cases
of cigar leaf were exported from New
York.

PLATTEVILLE MAN DIES IN WASHINGTON

STRICKEN WITH APOPLEXY
SATURDAY NIGHT.

Carriage Works at La Crosse Par-
tially Destroyed By Fire—Loss Was
\$60,000—Three of a Boating Party
Drowned at Ashland—News From
Badgerdom.

Platteville, Wis., July 31.—Charles
W. Hill, a clerk in the pension office at
Washington, who went from this place
ten years ago was stricken with apoplexy
Saturday evening and expired in a
few minutes.

Mr. Hill was twenty-five years old and
served in the Twenty-first Wisconsin

sided for many years in Grant county,
and was county clerk for six years. He
was a member of the G. A. R. post and

Fire Loss of \$60,000.

La Crosse, Wis., July 31.—The La
Crosse Carriage works, formerly the La
Crosse Wallis Carriage company burned
Saturday night. The plant consists of
a brick vaneered building, four stories
in front and five in the rear, 60 by 150
feet. Adjoining this is a repository and
warehouse, two stories and attic, of
about the same ground dimensions. From
the first floor of this building \$5,000
worth of completed work was removed
with little damage, and the building
only injured by smoke and water. The
front half of the main building is not
burned out completely, but is doubtful if
much of value will be saved. The engine
room is not much damaged, and there
will be considerable salvage on the con-
tents of the blacksmith shop. There was
about \$40,000 worth of stock completed and
in various stages in the two buildings. Es-
timating the salvage at its highest prob-
ability the loss will be between \$50,000
and \$60,000. The insurance on everything
is \$25,000.

cushions were all found floating near
the dock yesterday morning, but all ef-
forts to secure the bodies by dragging the
bay have thus far been vain.

Mrs. Boynton and daughter were per-
manent residents of Ashland and well
known.

Mr. Ott was a lumber commission
merchant of Chicago, but has been here
this summer. His family resides at

Comment on Peace Conference.

London, July 31.—The papers all de-
voted space to the closing of the peace
conference. W. T. Stead says in the
Daily News: "The American delega-
tion has been one of the most useful
elements in the parliament. If the old
traditional policy of America had been
construed with such severity as to for-
bid the presence of American delegates at
the international gathering the
world would have been the loser."

NEW PRESIDENT OF WOOSTER

Dr. Louis E. Holden of Beloit College,
Honored.

The Beloit correspondent of the Mil-
waukee Sentinel, had the following to
say of Prof. Louis E. Holden, who
last Saturday was elected president of
Wooster, O. college:

"Prof. Holden is one of the best
known of the young college men of the
northwest, and has carried the name of
Beloit into many places. Besides having
the chair of oratory at Beloit, he has
been the college's financial agent, and
has done more than any other individ-
ual in raising money for Beloit. He has
a remarkable facility for business and
especially in presenting the needs of his
work. He is full of enthusiasm, very
popular with students and intensely
loyal to the college. Discussing the ap-
pointment to the presidency of Wooster
today, he said, that he loves President
Eaton and Beloit college, and Beloit
next to his wife; he has talked Beloit
college and Beloit people ever since he
has known about them, and he leaves
Beloit reluctantly. The tender of the
presidency came to him entirely un-
sought, and was a surprise. After the
resignation of Dr. Scoville, men
prominent in the Presbyterian
church, recommended Professor Holden,
and he at once received the endorse-
ment of the Beloit trustees and
faculty. Recently he had a conference
with the board of trustees, and was
unanimously elected president at a sal-
ary equivalent to \$3,500 a year. Prof.
Holden has accepted the place and will
take up his new duties as soon as he
can."

"Wooster college is the principal
Presbyterian school in the west and has
an enrollment of 800 students."

"Prof. Holden was born near Rome, N.
Y., and was the son of a farmer. His
early education was at the Utica, N. Y.,
schools, and at the age of 14 he entered
a shoe factory and learned the trade.
Later he came to Chicago and from
there entered Beloit academy, finished
the academy course and entered Beloit
college, graduating with the class of
'88. The same fall he entered
Princeton Theological seminary and
in 1889 he was called to Beloit
to assist President Eaton in raising
money for Beloit college. The college
then had some great plans on hand,
and from them came the bequest of James
Scoville, of \$25,000 for an academy
building, and D. K. Pearson's gift of
\$250,000. Mrs. Doyan of Madison of
\$15,000 for a chapel, W. E. Hale's of
\$60,000 for endowment and the other
donations that put Beloit college on a
financial footing in keeping with its
general work. To meet the conditions
of the gifts required such tact and
energy as only such a man as Prof.
Holden possesses, and the college gives
him a large measure of credit for accom-
plishing the successful work under-
taken. During his labors for Beloit, he
also prosecuted his studies at Princeton,
and later has been professor in oratory
at Beloit. He is thirty-seven years of
age. He married Miss Hattie Simmons,
of Utica, N. Y., and has a beautiful
home in this city."

and Union of All Classes.

Havana, July 31.—A mass meeting
was held Sunday under the auspices
of the Sociedad Democratica, a branch
of the Cuban National Society of In-
dependence. Few American flags were
to be seen in the streets, but hundreds
of Cuban emblems were displayed.
Speeches made at the meeting all fa-
vored absolute independence. One man
said "the national party had rejected
the plan to give a representation to
the family of Gen. Gomez, who was
only a personality. The object now
was for all to unite, white and black."

REBELS DRIVEN FROM CALAMBA

Appeared Again in Consid-
erable Force

SEVERELY PUNISHED AND DRIVEN OFF BY HALL.

American Casualties Were One Killed
and Seven Wounded—Capt. Simp-
son, of the Sixth Infantry, on the
28th Struck a Robber Band At
Negros, Killing Nineteen, With No
Losses—North Dakota, Wyoming
and Idaho Volunteers Ready to De-
part For Home.

Washington, July 31.—[Special]—
The following was received from Gen.
Otis this morning:

"The insurgents in considerable force
appeared in the vicinity of Calamba
yesterday, but were punished and driven
off by Hall. Our casualties were one
killed and seven wounded. Capt. Simp-
son, of the Sixth infantry, struck a rob-
ber band at Negros the twenty-eighth,
killing nineteen. No American casual-
ties. The North Dakota, Wyoming and
Idaho volunteers on the transport
Grant are ready to depart. They desire
a delay until tomorrow in order to re-
ceive their monthly pay. Request per-
mitted. Otis."

One Killed; Six Wounded.

Washington, July 31.—[Special]—
Otis today reported one killed and six
wounded in the first fight at Calamba.

Calamba Cable Laid.

Manila, July 31.—Cable communica-
tion was established with Calamba at
6:30 o'clock Saturday night. "The suc-
cess of the new plan of following the
troops with a cable ship was celebrated
by the sending of several messages be-
tween Gen. Hall, who commanded the
troops which made the daring capture
of the city and Gen. Otis."

Manila, July 31.—The "insurgents
made an unsuccessful attempt Sunday
to recapture the town of Calamba, on
the shore of Laguna de Bay, which the
forces of Gen. Hall captured last
Wednesday afternoon. The rebels
numbered 2,400 men. The attack was
made simultaneously from the north
and south, the Filipinos apparently
thinking that they would confuse the
Americans by attacking from two
points at once.

It was not even necessary to employ
the whole American force to drive
the Filipinos off. Two companies of
the Twenty-first infantry, a squadron
of cavalry, and one gun sufficed to re-
pulse the attack from the north, while
the 400 men of the Washington reg-
iment, comprising part of Gen. Hall's
command, and a detachment of cavalry
drove off the rebels who had advanced
from the south.

NINETEENTH ANNUAL MEETING OF THE WISCONSIN PHARMACEUTICAL ASSOCIATION

Four Gala Days For Janesville, August 8, 9, 10 and 11.

THERE'S A GOOD TIME COMING.

BRIEF SYNOPSIS OF PROGRAM.

The druggists of Janesville are apparently making no great demonstrations over the coming nineteenth annual meeting of the Wisconsin Pharmaceutical Association to be held in the Bower City August 8, 9, 10 and 11. They are working quietly, however, and there is an undercurrent that is growing rapidly and will assume large proportions when the time arrives for the visitors to besiege our city. Immense amounts of advertising matter, descriptive of the coming meeting, the city and surrounding country has been mailed to druggists throughout the state. Every pharmacist of the association has been invited to be present and every pharmacist in business or clerking for others has been invited to become a member and from present indications the already large membership will be materially increased at the coming meeting.

As we said, the local druggists are working quietly, but nevertheless, they are working diligently and unceasingly and that they will entertain the largest attendance of druggists ever assembled at a meeting of the association is now beyond a shadow of doubt.

As a general thing, pill compounders are a busy-body class of people and seldom are afforded opportunities to free themselves from the activities of business life and on this occasion they come fully prepared to enjoy an annual outing, which means volumes to the business interests of the city. They are not spendthrifts in any sense of the word, but they are a liberal, whole souled and jolly lot of fellows who assemble at their annual meetings with a determination of having a good time and they usually have it and are seldom disappointed.

Other business and professional men of the city are encouraging the local druggists and will assist them in extending the glad hand of fellowship. Not a stone will be left unturned to make the sojourn of the visitors one long to be remembered.

Hotel Rooms Already Engaged.

Secretary E. B. Heimstreet informs us that rooms at the leading hotels have already been engaged and citizens are voluntarily offering to throw open their doors in order that all may be properly cared for. It is expected at the present time that we will be obliged to entertain in the neighborhood of eight hundred visitors, as many of the druggists will be accompanied by their families.

The officers of the association are as follows:

President—R. M. Dadd, Milwaukee.
First Vice President—C. A. Spencer, Waupaca.
Second Vice President—Anton Pfeil, Fond du Lac.
Secretary—E. B. Heimstreet, Janesville.
Local Secretary—Geo. E. King, Janesville.

Treasurer—W. P. Clarke, Milton.

The Druggists' Exchange give the following account of the association:

"The Wisconsin association has a rather peculiar history; for, from its incorporation to the present time, it has been successful in whatever it entered into. On a warm day of August, 1880, eighty druggists met in Madison, and then and there the Wisconsin Pharmaceutical association was incorporated, with the late John A. Dadd as president, he being one of the best known and prominent pharmacists in the state, and it seems appropriate that this, the largest meeting of the association, just nineteen years later, should be presided over by his son, who succeeded him in business.

That the association has been successful is owing in a great measure to the unanimous good feeling prevailing among Wisconsin druggists. While there has been a strong fight every year for positions as officers, it has always

been friendly, and the officers ably represent the profession."

The following committees are hard at work, and are finding plenty to occupy their time:

Executive—F. M. Crow, Evansville; Emil Dietz, Milwaukee; E. B. Patton, Waupun; Henry Rex, Husisford; E. D. Sperry, Phillips.
Legislation—A. A. Pardee, Madison; Edwin Summer, Madison; H. C. Schrauck, Milwaukee; Charles Spencer, Waupaca; H. B. Allen, Richland Center.
National Legislation—Joseph Herb, West Superior; J. C. Huber, Fond du Lac; John Rosch, Menasha.
Adulteration—Louis Meyer, Sheboygan.

sociation and its members, know them to be capable of procuring all the possible enjoyment to be derived in life, even if they are on the "shady side," and their contemplated visit to Janesville is hailed with delight.

The Knights of the Grip
A story of the great coming affair would be far from complete without reference to the Wisconsin Pharmaceutical Travelers' Association. The traveling man is the prince of good fellows and as the Wisconsin Druggists' Exchange says: "He does not have the easiest time in the world. He sleeps and eats only when he gets time to—not when he pleases. He drops into

The Ladies' Auxiliary.

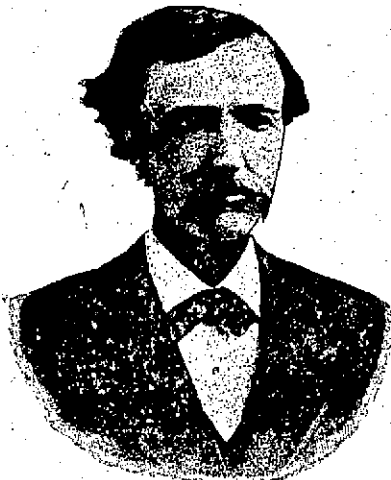

Prior to 1892 but few ladies attended the association meetings, and those who did were left alone most of the time. At Oebkosh in 1892, the ladies formed the Ladies' Auxiliary club of the W. P. Each year has seen large additions to the membership and more interest taken, and now a majority of the visiting

Distinguished Visitors Coming

Aside from the druggists of Wisconsin, we are to entertain distinguished guests from Chicago. A trifle over a year ago there was organized in the Windy City what is termed the Veterans Druggists' Association. As the name would indicate, it is composed of ye olden time druggists. Mr. Heimstreet is in receipt of a letter from Wm. Bodemann, a member, in which he says: "As soon as the program turns up, I shall see what day a visit would be of best advantage and bring up as many of the veterans as possible. They are on the 'shady side,' but mighty lively ducks. Shall mail you Log Book of our last Milwaukee visit to show you what we did. President Dadd was with us. It is probable that our board meets about the same time, but I will not miss the pleasure of the Wisconsin trip. I always remember that I began U. S. pharmacy in Wisconsin."

Those acquainted with the above as-

a town worn out with the last night's traveling, puts up at his hotel and finds he is too late for regular breakfast so he takes what they bring him; it is not always good, you know, what they have left. He goes down town after his customers and finds one of the best ones is in New York and one of the other fellows is sick and can't buy goods. He gets turned down at one or two other places and things do not look a bit rosy to him. Then about noon he drops in to see a man who was pretty crusty last time and finds him in good humor. Man gives him an order, not a very large one, but an order nevertheless and then wants to talk. The traveling man is hungry and his head aches, but he stays and talks and you would never know that he was not having the best time of his life. He tells a few good stories and laughs at some the customer tells him. But he is still hungry, and he knows the dinner, none too good for those who arrive early, will not improve by standing. And still he can't get away, for the customer is one of these peculiar fellows such as we have all seen, who have to be handled as carefully as a piece of fine china. Finally he goes to dinner and finds about three things on the bill of fare that he likes and the waiter tells him they are all gone."

The traveling men are coming bag and baggage and their very pretence would drive dull cares from a Methodist camp meeting. They are coming for a good time and they will have it. On Tuesday evening, August 8, the travelers will give an entertainment and have invited the druggists of Wisconsin and their families to attend and the affair will afford a barrel of fun for those who are fortunate enough to attend.

At 7:30 p. m., travelers' procession will form at Grand Hotel in heavy marching order, dusters and grips, led by the Travelers' Double Brass Band, E. A. Oakes in charge. March to Odd

pharmacists bring their wives, daughters and sisters. This year they expect to double their membership.

The Ladies' Auxiliary will hold several sessions, from which all men are excluded, as it is rumored they cannot confine themselves to one talking at a time, and do not propose that outsiders shall know it. The following are their officers: President, Mrs. Henry Rollmann, Clinton; vice president, Mrs. E. B. Heimstreet, Janesville; secretary and treasurer, Mrs. Fred C. Mitchell, Milwaukee.

Wednesday morning all the visiting ladies are invited to a steamer excursion ten miles up Rock river, returning in time for dinner.

Wednesday evening, August 9th, the ladies of the Auxiliary society give a reception and dancing party to the visiting druggists, the traveling men and their families, and the druggists of the city. The reception will be held at Odd Fellows' hall, commencing at eight o'clock sharp. Some game will be given between each dance.

NEBRASKA REGIMENT HOME.

Transport Hancock Brings Veterans from Manila.

ROYAL WELCOME PREPARED.

The Heroes from the Backwater State, with Utah's Famous Artillery, Back from War—Disembark at San Francisco Today—The Banks Depleted.

San Francisco, Cal., July 31.—Last night the First Nebraska volunteers and the Utah artillery slept on the transport Hancock in the bay, waiting for the dawn to disembark. The transport arrived here at midnight Saturday night. Sunday the health officers visited the ship and found it to be free from contagion. It was expected that the troops could then be disembarked, but as it was late in the afternoon when the details of inspection were completed, Gen. Shafter, at the request of Gov. Poynter of Nebraska, deferred the transfer of the troops until this morning at 9 o'clock.

The regiment of Nebraskans returns with a record of service unsurpassed by any other organization in the Philippines. It took part in over thirty engagements, lost its colonel in battle, with one captain and one lieutenant, with thirty-five others killed or dead from disease. The official list of killed, wounded and sick numbers 204. Not less valorous, but more fortunate in the matter of fatalities, is the Utah artillery, the work of this organization under the direction of Major Young being familiar to all who have kept pace with events in the islands beyond the sea.

A delegation of Nebraska citizens, headed by the governor of the state, is in the city to welcome the boys from that state. The untimely hour of the arrival of the transport, with the delays, have interfered somewhat with the plans of this committee, but the reception will be none the less hearty because postponed. In the delegation from Nebraska are the relatives of many of the members of the famous regiment.

There are 1,160 men on board, including, besides the two organizations mentioned, five discharged soldiers from the Twenty-second Infantry, Col. Harry Egbert's regiment, Col. H. B. Mulford is in command of the First Nebraska, having succeeded Col. John M. Stotsenberg, who was killed in battle.

The Utah artillery is in command of Major Grant. When the artillery left here Major Young was at the head of it. He was appointed supreme justice of the Philippines and resigned his command. Capt. Critchlow came with his company, but he is on the sick list. Only one man died after the vessel left Manila. He was Private Richard Ralph of battery A, Utah artillery. He died of typhoid fever.

Among the Nebraskans there are on board upward of 100 sick and wounded. Of the officers the most badly wounded were Capt. Hollingsworth and Lieut. Wadsworth. The regiment's ranks will look thin. Since the arrival in the Philippines there have been lost in killed, sick and wounded, 204 men—the greatest loss suffered by any regiment in the Philippines. Twenty-five of the Nebraska men, including Lieut. Col. Colton, remained at Manila to go into business. One man re-enlisted, joining the Thirty-Fifth regiment, Col. Bell.

The Hancock docked at 9:30 o'clock and the report that the men were to march to the Presidio between 2 and 3 o'clock in the afternoon served to line Market street and Van Ness avenue with a solid wall of humanity. Probably 150,000 people were gathered to welcome the Nebraska boys along the line of march.

Men, women and children boarded the transport, loaded with gifts of California's choicest fruits and flowers for the First Nebraska. The most gorgeous and fragrant blossoms and the juiciest apricots, peaches and pears were none too good for the slougiest private aboard the Hancock. The vicinity of the dock was black with humanity, and the whole of the water front took on a Fourth of July appearance in honor of the returned volunteers.

Home Towns Celebrate.

Lincoln, Neb., July 31.—Noisy demonstrations and joyful celebrations followed the news of the arrival of the First Nebraska regiment at San Francisco. In Lincoln and other Nebraska towns cannon were fired, whistles tooted and bells rung. The soldiers are expected to leave San Francisco in about three weeks for home and an elaborate reception to the regiment at Lincoln is being prepared.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. A Palate Tickler.

"Years ago, when I belonged to a coterie of gay young cavaliers in New York city," said Colonel Henry Waterson at Chamberlain's, "I designed the dish now generally known as lobster à la Newburg. I gave my idea to Charlie Delmonico, and he saw that it was carried to successful execution. John McCullough was one of us, and to John is due the appearance of broiled live lobster in the east. He had caught on to that epicurean way of preparing it during his stay in California. In after years I attained some fame as a manipulator of certain dishes, terrapin, perhaps, being my masterpiece.

"Curiously enough, all the newspaper stories have given me credit for being an artist in the preparation of oyster stews, but my experience with the bivalves is limited. I always left them to John Chamberlain, while he would not allow any one but myself to attend to the diamond backs.

"I can't begin to tell you how much of this ingredient or the exact quantity of the other to put with the terrapin, but I know how to blend them all in an instinctive sort of way, and I've never yet found the man who didn't admit that my cooking was of the highest order."—Washington Post.

Taking Yukon Gold Output.

Ottawa, Ont., July 31.—In the house of commons Saturday Sir Charles Tupper spoke in favor of a reduction of the royalty on the gold output in the Yukon. Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa. For sale by People's Drug Co.

Conference in a Deadlock.

Atlantic City, N. J., July 31.—The conference between the glass blowers and green glass manufacturers over a wage scale to govern during the ensuing year is deadlocked. The manufacturers declined to concede the 15 per cent increase over last year, but made several concessions in favor of the men, while on the other hand the blowers agreed to several propositions coming from the manufacturers, but the indications are that the old scale, with a few changes, will be in effect the coming year.

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For The Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

PUT DOWN A PAVEMENT

Milwaukee street should not be macadamized. Water pipes and gas pipes and street railway tracks will have to be dug up from time to time, as long as the city stands. If macadam is used when holes are dug it will be difficult to replace the street. A good pavement of some kind should be employed exclusively on business streets, and macadam should only be used on residential streets where traffic is light, and digging is seldom necessary. With a pavement—wood, brick, stone, or other material—trenches can be dug, and the street still replaced in as good condition as it was before.

Some of the property owners are opposing the plan to pave Milwaukee street with brick, and ask that macadam be used. The council should not rescind its action because of this fact, however. Milwaukee street does not belong to the property owners, but to the people of Janesville, and the people have a right to demand that it be put in good condition. The experience of the past years has shown that if we wait for the property owners to fix up the streets and sidewalks, we will wait until doomsday, and pay all costs in the mean time.

The fact that Milwaukee street is woefully in need of repairs is apparent. The repairs made should be permanent. The rights of the people are greater than the rights of a few property owners. The council has looked into the matter, and decided to lay a brick pavement for the reason that the mayor and aldermen consider it the best and cheapest.

The only way to get good streets and good sidewalks, is to take the bull by the horns, and force property owners to do their duty. The council now has the bull by the horns, and every citizen who favors better highways will hope that it doesn't let go.

Lieut. John J. Foley, formerly of the Sheridan Guard, of Milwaukee, who served through the Spanish war, enlisted as a private at Milwaukee, Saturday, and will go the Philippines with a musket on his shoulder. Lieut. Foley will not remain a private long, however. Men of his stamp are so scarce that they always reach the top, and we hope that he will return as a brigadier general.

What is the use of fixing Milwaukee street at all? It is almost impassable now, and when it becomes wholly impassable, the business men can move to some other location. This will cause the town to expand and spread out. This argument is quite as good as some of the others advanced.

The Count D'Astorga denies that Willie Astor is a connection of his. Probably Willie is the victim of a typographical error in compiling his family tree. Perhaps he meant to say that he was a lineal descendant of the Count du Castoria, the kind that the children cry for.

And, after pausing to note the fact that Thaken Sanwas Singh of Ragru, and Rao Kanjit Singh of Bandanwara, two barons of India, are loyal to England, let us again turn to the serious questions of existence.

How many streets are there in town that have been paved on the suggestion of the owners of the abutting property? Now don't all speak at once gentlemen!

Everybody is in favor of better streets but few are willing to pay anything for them. Such is "weak human nature."

Milwaukee Wisconsin—And now the price of shoes is to take a step forward. Telescopes, too, are looking up.

If some people had their way the streets would be "paved with good intentions" only.

William Henry Harrison Macloon is generally with the minority, anyway.

If a "journalist" suffers an irreparable injury he should sue for damages, like a common person, instead of filling the air with vain regrets. "Laugh and

the world laughs with you. Weep and you weep alone."

THE MAJESTIC DRUM MAJOR.

He May Blossom Out in a New Uniform.

The army has at last recognized the fact that the drum major is necessary, and a new style of dress has been prescribed for him in orders issued from the war department. He will carry a baton wound with silken cords and tassels, and the color will designate the arm of service: Cavalry, yellow;

NEW DRUM MAJOR UNIFORM FOR HEAVY ARTILLERY.

artillery, scarlet; infantry, blue and white intermixed. The mounted drum majors will carry swords instead of batons.

The shako, which has always been the headpiece of the drum major, has been prescribed by the new regulation, which describes this important article of dress in these words: "Black lynx-skin shako; with plume and tassels of the color of the arm of service, and leather chin straps, with brass scales and side buttons."

Instead of the scarlet coat, covered all over with braid and tinsel and decorated to the fancy of the wearer or his tailor, the drum major will now wear a dress coat according to the pattern of the arm of service to which he may belong, on which the facings and the cuffs will show by the color whether the drum major belongs to the cavalry, artillery or infantry.

REAL CASTLE IN THE AIR.

Unique Creation
Of a Paris
Architect.

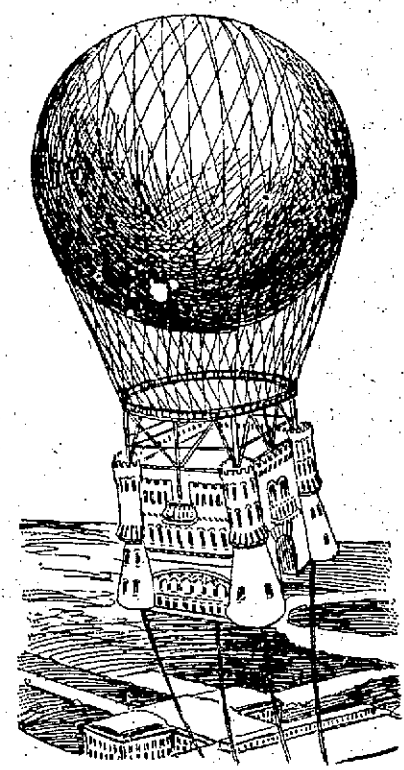

Paris, is to have a real castle in the air. That it will be a substantial affair may be inferred from the fact that it cost 25,000 francs.

An attraction so unique and, from an architectural standpoint, so daring that it is entitled to be regarded as one of the wonders of the century is this castle in the air that is to be constructed by one of the most noted of Parisian architects.

It is no less than an aluminum structure, built in the form of an old castle, which will be suspended 250 feet above the earth.

The balloon to which this aerial castle will be attached is to be the largest in the world, as it will have a capacity of 150,000 gallons. It is to be filled with hydrogen gas and will be constructed of the strongest oiled silk, covered with catgut net.

The castle will be attached to the balloon by aluminum bands, while oth-

er bands will connect the balloon with the earth, which will prevent it from rising any higher than the desired point.

The castle itself is to be an immense structure. One floor will be used as a music hall, where there will be singing and dancing. Another floor will be used as a rink for roller skating, the aluminum floor making an ideal surface for this sport, and here an international contest in plain and fancy roller skating will be carried on.

Why Cushionet Turns and Cushionet Ease Welts Exceed All Others.

The uppers are protected and these Shoes hold their shape better on account of the heavy square close or extension edge soles. The felt cushion, being a non-conductor of heat or cold, Cushionet Turns are constructed on hygienic principles. While the felt does not come in direct contact with the feet in these Shoes they are cooler in summer and warmer in winter because the heat or cold of the pavements does not penetrate this cushion. Because of their great success many attempts are now being made to imitate them. We advise every lady to see these Shoes. They are made over the latest style lasts, and we carry all sizes and widths.

WILLIAM J. BRYAN VISITS BOWER CITY

Tarried Here For an Hour
Today

EXPOUNDER OF FREE SILVER
EN ROUTE TO MADISON.

Arrived At 9 O'clock: Over the Chicago, Milwaukee & St. Paul Road. From Beloit—Accompanied By Hon. Clinton Babbitt, On Whose Farm Near the Line City He Spent Sunday—Speaks At Capital City This Afternoon—Time Here Devoted to Had Shaking and Chats.

Janesville was honored this morning by the presence in the city of Hon. William Jennings Bryan, the great expounder of free silver. He arrived at 9 o'clock over the C. M. & St. P. road from Beloit and was accompanied by Hon. Clinton Babbitt, on whose farm near the Line City he spent Sunday. Mr. Bryan was on his way to the Monona Assembly at Madison where he speaks this afternoon, his subject being, "Watchman, What of the Night?" The train was due to leave at 9:45, but owing to a delay caused by an excursion from Darlington he did not depart until 10 o'clock, the hour at the depot being devoted to hand shaking and chats with a number of people introduced by Congressman Clinton Babbitt. Mr. Bryan is a genial gentleman and had a pleasant word for all who had the good fortune to meet him, whether it was a person whose views were along the same lines as his own, or a workman around the depot who frankly expressed himself as being opposed to the silver idea. It was not generally known that he would pass through here so there were but few people on hand to see him.

No sooner had he stepped upon the platform than he looked curiously over at the C. & N. W. side and noticing the new depot remarked with a smile that his last visit here was "a little more exciting than the present." He referred to the time during the last presidential campaign when he made a speech from the rear end of his train and the trouble occurred between the McKinley club which was enroute to Rockford, and the Bryan forces.

The great free silver advocate is evidently rooted and grounded in the faith, for when he was asked by a Gazette reporter if his views had not necessarily undergone a change owing to the great wave of prosperity which has attended the McKinley administration, he said:

"No, I am as firm in my belief as ever, and my lecture today will be a discussion of some tendencies which I think ought to be corrected. I am confident that the democracy will triumph in 1900."

"But, Mr. Bryan," ventured the reporter, "you were as confident of success in '96."

"Well," answered the leader of the forlorn hope with a laugh. "If we don't always win we think we ought to, anyway."

"Where do you go from Madison, Mr. Bryan?"

"I speak at Manitowish tomorrow, at Bay View, Thursday and at Marinette, Saturday, after which I expect to enjoy a vacation."

"Where do you go to recreate?"

"Well, I shall take to the mountains and get as far away from the haunts of man as possible, but if I were to tell you newspaper men just where I was going I fear I would not have much rest."

By this time the bootblack, who had been polishing up Mr. Bryan's shoes, completed his work, the train moved up and Colonel William Jennings Bryan joined the excursionists and was soon on the way to keep his engagement.

"The Gazette," said Hon. Clinton Babbitt in the course of the talk, "is all right. It is a splendid paper and has always used us fairly. Anyone connected with The Gazette is a gentleman."

CHESTER A. WILCOX IS DEAD

Former Janesville Man Passes Away at His Home in Quincy, Ill.

Chester A. Wilcox, formerly of this city, died at Quincy, Ill., yesterday. Mr. Wilcox was the son of Daniel Wilcox, who at one time owned The Gazette. Mr. Wilcox was postmaster at Quincy. He was publisher of The Quincy Whig from 1874 to 1898, having gone to Quincy from Milwaukee, where he was connected with The Milwaukee Sentinel, of which his father, the late Daniel Wilcox, was at that time one of the largest stockholders.

Mr. Wilcox was one of the republican leaders of the state. He was appointed postmaster by President Harrison in 1889 and again by President McKinley in 1897. He was fifty-one years of age, and had never married. He was a member of Quincy consistory of Scottish Rite Masons and Elks Commandery of Knights Templar.

LIBBY LIKES LOCALS BETTER

Evansville Newspaper Man Doesn't Believe in Journalistic Mail Throwing

Editor Libby, of the Evansville Enterprise, says: How natural it is for some rival newspapers to like to relieve themselves by throwing little dabs of mud, but we believe the people as a rule prefer good live locals of a higher order for such things denote a jealous soreness of a low mean vicious mind and certainly ought to be beneath the dignity of any respectable editor or publisher.

ORION SUTHERLAND

WINS SIXTH PLACE

IN MILWAUKEE-WATERTOWN CENTURY ROAD RACE.

Twenty-Three Starters and Fifteen Finished in Yesterday's Run—D. Van Wart, of Beloit, Finished Second—Lost His Way Not Going Over Official Course—Disqualified.

Orion Sutherland rode in the Milwaukee-Watertown century road race at Milwaukee yesterday, finishing in sixth place in a field of fifteen riders. Mr. Sutherland had a handicap of two hours, and covered the course in eight hours and thirty-four minutes.

Edwin Aldridge and Edward Roth of Milwaukee, and Edward Bellman of Fort Atkinson, were the time winners, Bellman, with a three-hour start, being the first to finish, but only getting third time prize. D. Van Wart of Beloit, finished second, but as he lost his way and did not go over the whole of the official course, he was disqualified. The best time made was six hours and forty-five minutes.

Mr. Sutherland could have made much better time, but when he reached Ixonia, six miles out of Oconomowoc, on the outward trip he met the limit man who was the winner of the race, coming back on the return trip. As Ora was out for first prize or nothing and seeing that it would be impossible to go to Watertown and then catch the leader, he very sensibly decided to take it easy for a while. He filled up on a four cornered meal and then finished in sixth place. Taking out the one hour and forty minutes, he was off, from his wheel it will be seen that his actual riding time was seven hours and thirty-four minutes, a most creditable performance considering that he was unfamiliar with the course and that the wind had to be faced both going and coming. His position in the race was virtually fifth, on account of Van Wart cutting the course, which disqualified him. Twenty-three riders started, but eight of them fell by the wayside, and only fifteen finished.

The following is the list of riders, together with their positions at the finish, handicap and actual time:

Pos. Name. Hads. Hours, Time

1. Edward Bellman, Ft. Atkinson. 3:00 7:14

SORRY TO LOSE E. B. MOSES

Lake Charles Paper Speaks of Him in Terms of Praise.

The Lake Charles, La., Daily Press expresses regret because of E. B. Moses' leaving that city, saying: "In the departure of Mr. E. B. Moses from this city for his future home in Janesville, Wis., The Press feels that it would be a regret in its duty as a public journal to omit an expression of regret, felt by all classes of our people at the severing of business relation and social ties which have so amicably existed for a long period of years. Socially Mr. Moses possesses all the attributes of a gentleman—a gentle disposition, courteous demeanor and affable address, combined with a charitable nature and broad and liberal mind.

"In his business intercourse, with our people Mr. Moses was ever polite and courteous, upright and honorable, of an even temperament, no business transaction, however complex, ever irritated him, and the exactions incident to a vast real estate and banking business, never brought a frown to his brow or a discourteous word to his lips. He was an ideal business man, and there are many in our town today who will miss his cheery words of encouragement and the ready hand of assistance in times of financial straits and embarrassments.

"We sincerely regret to lose such a citizen, but congratulate the people among whom he casts his lot in the future."

NEATH THE SHADOW OF DEATH

Dr. O. C. Bennett

Yesterday afternoon all that was mortal of the late Dr. O. C. Bennett was laid to final rest. Beautiful and impressive services were held at the late home of the deceased, 160 Milton Ave., at 3:30 o'clock, and at the First Presbyterian church at 4 o'clock, Rev. E. H. Pence officiating. The funeral was attended by a large gathering of sorrowing friends and relatives and the many beautiful floral pieces and banks of cut flowers were mute testimony to the esteem in which the deceased was held by all who knew him. A beautiful song service was rendered by a quartette consisting of Mr. and Mrs. Chas. F. Yates, Mrs. S. B. Lewis and George G. Paris. The pall bearers were all fellow dentists and were as follows: Dr. R. J. Hart, Dr. Chas. T. Peirce, Dr. Ira Holapple, Dr. Norton Wells, Dr. R. R. Powell of this city and Dr. Bennett, an old schoolmate, of Monroe. The interment was in Oak Hill cemetery.

John Dolan.

John Dolan, only son of Mr. and Mrs. Thomas Dolan of Milwaukee, died this morning at 9 o'clock, after an illness of several months, of heart trouble.

Although for some time past his complete recovery was doubtful, when the final summons came, the shock was more the less severe to the family circle; for John was a bright, kind hearted boy, just entering into young manhood. He had often visited Janesville, at the home of his grandparents, Mr. and Mrs. M. Hickey, and the sympathy of many friends will be extended to the bereaved parents and sisters.

The funeral will probably be Wednesday, and the interment at Madison.

CENTER OF POPULATION

Steady Movement Westward
During the Past 100 Years.
Influence of Railroads
and Immigration.

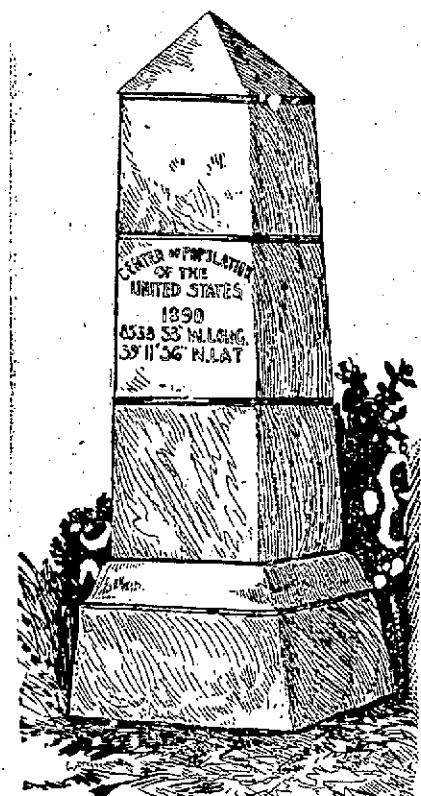

BY C. T. BAXTER.

The center of population of the United States has moved westward during the past 100 years at the average rate of something over ten miles a decade. At this rate the center of population in 1900 will be at the intersection of the thirty-ninth parallel of latitude and the eighty-seventh degree of longitude, at a point about three miles southwest of Bloomfield, Greene county, Ind., 25 or 30 miles east of the Illinois state line. Greene county is about 25 miles southeast of Terre Haute and 40 miles southwest of Indianapolis.

The exact location of this point cannot be determined until after the census of 1900 has been taken. Many are of the opinion that the western movement will be less than heretofore, and some even declare that the east has outstripped the west during the past ten years in the matter of increase of population and that the center will not move as far west as 50.5 miles. Government officials who are informed concerning matters relative to population believe that the center will remain in Indiana and that its location will be somewhere in the vicinity of Terre Haute.

The center of population of any country is that point which is nearest the greatest number of its inhabitants. In other words, it is a general average of the distribution of population over the country's territory.

It is that point at which a man could establish a business, for example, and reach the greatest number of people in all directions with the greatest ease. In 1850 the center of population of the United States was at a point al-

MONUMENT MARKING THE CENTER OF POPULATION IN 1890.

most due south from Parkersburg, W. Va. Ten years later it moved over into the southeastern border of Ohio and for 20 years remained in that state. In 1870 it was near Chillicothe. In 1850 it dropped down almost to the center of Cincinnati. Ten years later it had crossed into Indiana and will probably remain there until Illinois shall claim it in the twentieth century.

It is noticeable that this center has always followed closely the thirty-ninth parallel of latitude. It is a further fact, curious enough, that the majority of the large cities of the United States, as well as of northern Europe, are either on or reasonably close to the thirty-ninth parallel.

Note the list in this country: New York, Brooklyn, Philadelphia, Harrisburg, Pa.; Washington, Baltimore, Columbus, O.; Cincinnati, Indianapolis, Terre Haute, Springfield, Ill.; Decatur, Ill.; St. Joseph, Mo.; Kansas City, Atchison, Kan.; Topeka, Leavenworth, Lincoln, Neb.; Omaha, Cheyenne, Wyo.; Denver, Salt Lake City, Carson City, Nev.; Sacramento and San Francisco.

North of this parallel are Cleveland, Toledo, Chicago, Peoria, Detroit, St. Paul, Minneapolis and other cities, and south of it are St. Louis, Louisville, Evansville, Paducah, Cairo, and other towns of lesser importance.

Railroads and immigration have been the great factors in pushing the center of population westward. Another matter which affected it was the acquisition of Texas and the Gadsden purchase.

In calculating the center of population, Alaska and our more recent acquisitions are not included. In 1890 it was in a rural spot a few miles south of Greensburg, Ind., within the retail commercial radius of Cincinnati. Marking the spot is a large granite monument, erected by a western newspaper and unveiled May 10, 1891.

The center of the May of the United States is near Fort Riley, Kan.

The maiden name of the ex-Empress Engenie was Miss Kirkpatrick. She was the daughter of a Scotchwoman of high birth.

CRUSADE AGAINST LYNCHING

Miss Jewett Termed a Second Harriet Beecher Stowe.

Miss Lillian Clayton Jewett of Boston, who is 24 years old, rather above the medium height and of very magnetic, attractive ways, is fighting against Judge Lynch. She has been referred to in Boston as the new Harriet Beecher Stowe, sent by heaven in answer to the prayers of the colored race. The colored people of Boston

MISS LILLIAN CLAYTON JEWETT.

simply adore her. They think she is the first person who has taken up the cause who is gifted with inspiration.

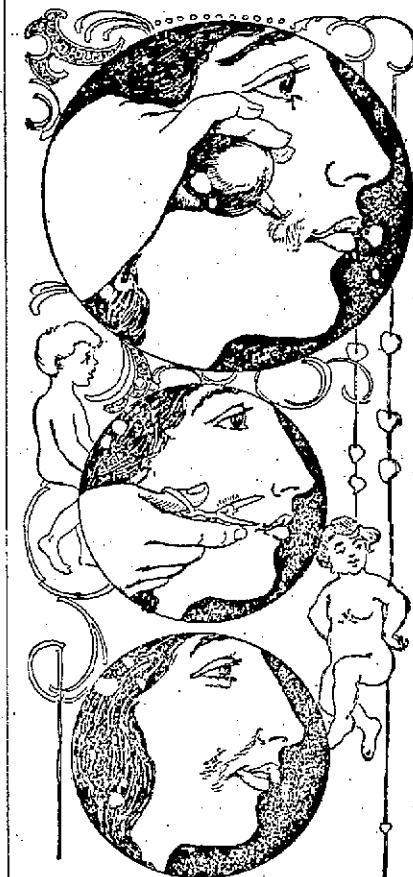

At a mass meeting of colored people in St. Paul's Baptist church Miss Jewett made an address on "Lynching in the South." One of the climaxes in her speech was when she offered to go to Charleston, S. C., and bring to Boston the family of Postmaster Baker, who was lynched. She believes that their presence in the north in lecture rooms and lyceums would create a sentiment in favor of the southern negro which would do much to alleviate his troubles.

The young woman spoke with passion and energy. She is not a great orator, but has a way with her which carries the hearts of those who listen. The colored people in the audience, and most of them were colored, were frantic with enthusiasm.

DIMPLES TO ORDER.

How Surgeons
May Imitate Cupid's
Work.

Being able to change the shape of the nose or the color of the eyes, it follows that science has taken the making of dimples upon its hands, and now one of the cleverest surgical operations results with little pain to the patient in a perfect imitation of the

HOW DIMPLES ARE MADE.

indentation wrought by the god of love and beauty himself. Paris originates it, of course.

The modus as practiced by the skilled surgeon who discovered the secret is to draw up the flesh in either chin or cheeks by means of a glass suction tube, of course an infinitesimal amount of entele being all that is necessary to thus secure. This done, the portion drawn up by the force of the air is tied with a bit of silk thread, treated with cocaine and then snipped off with surgeon scissors. The wound is made less painful by dressing until it is thoroughly healed, when the silk thread is removed and the neatest of little holes, the exact replica of a dimple, is there forever.

Of course laughter has no specific influence upon the made dimple. The face in repose, in sorrow, in joy, will always be a dimpled one—a drawback that surgery has not yet been able to overcome. The made dimple is not responsive to emotions, but it is a potent factor in the charm of the feminine face.

MCKINLEY MAY MEET LAURIER.

Conference Might Adjust the Alaskan Boundary Dispute.

New York, July 31.—A dispatch to the World from the Hotel Champlain, N. Y., says that a most important suggestion has just been made to President McKinley. It is:

"In view of the controversy between the United States and Canada regarding the location of the Alaskan boundary line, and also in view of the apparent ill feeling between Canadians and Americans, would it not be fitting and opportune for the president to meet Sir Wilfrid Laurier, Canada's prime minister, at some point near Champlain, on the Canadian border? Would not such a friendly meeting tend to clarify the muddled atmosphere and facilitate the high joint commission in its labors?"

The World correspondent alleges that he is permitted to say that this proposition has been submitted to the president within the past fortnight, and that there is reason to believe that the topic was broached by a British diplomat high in the affairs of the government.

Unlimited possibilities would seem to open up if an informal meeting between President McKinley and Canada's prime minister could be arranged. The very fact, it is believed, would almost instantly dispel any animosity or bad feeling which may exist between the Americans and their neighbors across the line.

In Sympathy with Miners.

Evansville, Ind., July 31.—Representatives of the various trade organizations of the city held a meeting Sunday and decided to call all union men in the city out in a week if the coal operators refused to grant the demands of the miners and sign the Chicago scale. This will mean the suspension of practically every industry in this city. There were no disturbances at the coal mines Sunday where deputy sheriffs were stationed. National Committeeman Fred Dilcher of the union iron workers' organization will soon go to Indianapolis, where he will consult with Gov. Mount and ask him to disarm the non-union miners of this city.

Japan Swept by Hurricane.

Tacoma, Wash., July 31.—A terrible hurricane swept the Japanese coast from the 8th to the 11th of July. Reports received say that 200 people were killed and hundreds more were rendered homeless. In one district seventy houses were washed away, fifty persons killed and thirty are missing. In Itano district sixty were killed and hundreds of houses demolished. Loss of life and property damaged were greatest along the coast. Several fishing villages were practically washed away. Big landslides on the coast followed the storm and caused further damage.

Miners Scarce in Tennessee.

Chattanooga, Tenn., July 31.—Owing to the scarcity of coal in this district and the unprecedented demand for commercial fuel operators have advanced the price of domestic coal 25 cents per ton and commercial coal 10 cents. A leading operator stated that the scarcity of miners was due to the scarcity of coal was due to the scarcity of miners; that whereas usually in this and the Jellico districts there were formerly from 6,000 to 7,000 miners employed there are now hardly 4,000. The demand for miners is increasing.

Works on Financial Plan.

Washington, July 31.—The senate republican finance committee, which has been in session for some time at Narragansett Pier, R. I., has completed its work for the present and has adjourned subject to the call of Chairman Aldrich. Each member is to do some individual work along certain specified lines, and this is to be submitted to the full committee when it meets again in the fall to complete a report.

WINE OF CARDUI
WOMEN WHO WORK.
St. Louis, Mo., Aug. 12.
Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved.

Wine of Cardui
Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skilled physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

QUEER ETIQUETTE.

How a Chinaman Talks to His Boy's Teacher.

When a Chinaman takes his little boy to school to introduce him to his teacher it is done as follows, according to a missionary writer: When the Chinaman arrives at the school he is escorted to the reception room, and both he and the teacher shake their hands and bow profoundly. Then the teacher asks, "What is your honorable name?" "My mean, insignificant name is Wong." Tea and pipes are sent for, and the teacher says, "Please us tea." The Chinaman sips and puffs for a quarter of an hour before he says to the teacher, "What is your honorable name?" "My mean, insignificant name is Pott." "How many little stems have you sprouted?" This means, "How old are you?" "I have vainly spent thirty years." "Is the honorable and great man of the household living?" He is asking after the teacher's father. "The old man is well." "How many precious little ones have you?" "I have two little dogs." These are the teacher's own children. "How many children have you in your illustrious institution?" "I have a hundred little brothers."

Then the Chinaman comes to business. "Venerable master," he says, "I have brought my little dog here, and worshipfully entrust him to your charge." The little fellow, who had been standing in the corner of the room, comes forward at this, kneels before the teacher, puts his hands on the floor and knocks his head against it. The teacher raises him up and sends him off to school, while arrangements are being made for his sleeping room, etc. At last the Chinese gentleman rises to take his leave, saying: "I have tormented you exceedingly today, to which the teacher responds, 'Oh, no; I have dishonored you.' As he goes toward the door he keeps saying, 'I am gone.' And etiquette requires the teacher to repeat, as long as he is in hearing, 'Go slowly, go slowly.'"

In Tips for a Man to Become a Cardinal.

Rome correspondence Chicago Record: The new cardinals will soon receive from the Vatican a printed tariff of fees for their guidance. The document is strictly secret, but I was enabled to have a glimpse of it, and to take therefrom a few jottings which are worthy of record. The fees and "tips" which a new cardinal is expected to pay amount to 15,488 francs. On his appointment he gives 7,213 francs; when they give him the ring of office he pays 4,000 francs; and an equal sum is expended when he gets the red berretta. Tips in a stated amount are to be given to all the members of the papal court—monsignori, chamberlains,

usners, gillars, and down to the coachmen and gardeners of the Vatican. To the domestics of the cardinal secretary of state a modest sum of 400 francs is awarded, and to the nearest relatives of the reigning pontiff the ridiculously small item of 140 francs is fixed for some, unknown traditional reason. Over and above this outlay, which well-to-do and generously inclined cardinals sometimes double, the new cardinal must keep two carriages and four horses, and if resident in Rome he must have an apartment furnished with decent magnificence. In former times, when the pope was a de facto sovereign and the princes of the church equals in externals to royal princes, a cardinal generally expended a fortune at the beginning of his career, but now the expenses have been carefully cut down and he spends, everything included, about \$10,000.

Fashionable Pocket Monkey.

One of the queerest and most interesting of pets is the fashionable pocket monkey. This is the smallest member of the monkey family and has already become a favorite with the matinee girl, who delights to carry him with her in her muff, upon her sleeve or in her coat pocket. He has a blinking, intelligent face; even, tiny teeth, delicate hands and feet and is equipped with a plummy box in the shape of a feathery tail which he wraps about his throat at night. This little pet is very affectionate and will go through all his most coaxing ways for one of his favorite meat worms, which he eats from time to time. He is easily cared for, eating bread and milk and fruit, and lives several years, an odd, chattering pet, full of interest and entertainment. The pocket monkey costs from \$3 to \$20.

Every Person Should Take an Outing

One can do enough more work during the year if the week or two away from business and house cares is indulged in. You owe it to your health, and, as the old saying goes, "Live While You Live, for You Will Be a Long Time Dead." The first thought in connection with the picnic or Outing is the list of eatables. You cannot have a really enjoyable time unless you have plenty of good things. Your appetite is whetted, and you eat more than you ever do at home. Our store is full of good things for picnickers. It is the acknowledged headquarters along these lines. This list will help you in making selections.
